PATAN SAMEER ALI KHAN

Banaganapalli, Andhra Pradesh | +91-8106760110 | alikhansameer913@gmail.com
linkedin.com/in/sameer6760 | github.com/Sameer-Ali-Khan-913

Professional Summary

Computer Science and Engineering graduate with hands-on experience in Core Java, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), and web development (HTML, CSS, JavaScript, React.js). Skilled in building CRUD-based applications, with strong analytical thinking, problem-solving, and team collaboration abilities.

Technical Skills

Programming Languages: Java, JavaScript

Web Technologies: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Database: SQL, MySQL

Core Concepts: Object-Oriented Programming (OOP), Exception Handling, CRUD Operations

Development Tools: IntelliJ IDEA, Visual Studio Code

Education

Bachelor of Technology in Computer Science and Engineering (B.Tech. CSE) Oct 2022 – May 2026
A1 Global Institute of Engineering and Technology, Markapur, Andhra Pradesh | CGPA: 8.02

Intermediate – Mathematics, Physics & Chemistry (MPC)
Government Junior College, Banaganapalle, Nandyal, Andhra Pradesh | CGPA: 7.1

Projects

IndigoLearn ACCA Landing Page Oct 2026
React.js | Tailwind CSS | Personal Project | github.com/Sameer-Ali-Khan-913/indigo-learn-acca-react

- Developed a responsive ACCA course landing page using React.js and Tailwind CSS with reusable, component-based architecture.
- Implemented a mobile navigation menu and callback enquiry form with success modal using React state.
- Added eligibility, learning-level, and placement sections; deployed on Vercel through GitHub.

AI-Driven Emergency Vehicle Detection for Signal Optimization Using YOLOv8 Oct 2025 – Feb 2026
Final Year Project

- Developed a system using YOLOv8 and OpenCV to detect ambulances, fire trucks, and police vehicles from traffic surveillance footage.
- Implemented dynamic traffic-signal optimization by extending green-light duration when an emergency vehicle is detected.

Exam Seating Arrangement System Mar 2026
Core Java | Personal Project | github.com/Sameer-Ali-Khan-913/ExamSeatingArrangement

- Built a console-based Exam Seating Arrangement System in Core Java using a 2D Seat array and a Hall class for dynamic hall configuration.
- Engineered an $O(1)$ neighbor-conflict detection algorithm to enforce branch-separation rules during seat assignment.

Certifications

Java Programming Certification November 2024
A1 Global Institute of Engineering and Technology
